

13 : 30~16 : 21 The 5th International Session**13 : 30~14 : 15 Session 1**

Chair: Hideo Adachi (Saitama Medical Center, Jichi Medical University, Saitama, Japan)

Jade S. Hiramoto (University of California at San Francisco, California, U.S.A.)

INT1-1 EVAR in Ruptured Aortic Aneurysms

T. Richards (Queens Medical Centre, Nottingham, U.K.)

INT1-2 Disproving the Myth of High Secondary Intervention Rates Following Endoluminal Aneurysm Repair: Experience from a Single Centre

S.A. Black (Guy's and St Thomas' Hospital Vascular Unit, London, U.K.)

INT1-3 Common TGFB3 and LTBP4 Haplotypes are Associated with Slower AAA Growth

A.R. Thompson (University College London, London and Chichester, U.K.)

INT1-4 Saccular Aortic Aneurysm Cured by Embolization (Two Cases Report)

JieQi Mao (Shanghai First People's Hospital, Jiaotong University, Shanghai, China)

INT1-5 Spinal Arterial Anatomy and Risk Factors for Lower Extremity Weakness Following Branched Endovascular Thoracoabdominal Aortic Aneurysm Repair

Jade S. Hiramoto (University of California at San Francisco, California, U.S.A.)

14 : 15~15 : 09 Session 2

Chair: Tetsuro Miyata (The University of Tokyo, Tokyo, Japan)

B. Biermaier (Hochrhein-Bodensee-Klinikum Singen, Germany)

INT2-1 Vascular Surgery in Diabetic Foot Problems

B. Biermaier (Hochrhein-Bodensee-Klinikum Singen, Germany)

INT2-2 Intra Arterial Direct Infusion of Mannitol Cocktail for Musculoplegia; As a Rescue Additive Procedure for Acute Lower Limb Thromboembolic Ischemia

Kilsoo Yie (Kangwon Nat. University Hospital, Kangwon National University, Gangwon, South Korea)

INT2-3 Is Popliteal to Pedal Artery Bypass (PPB) Useful for the Dialysis Patient?

Masashi Inaba (Asahikawa Medical University, Asahikawa, Japan)

INT2-4 High Prevalence of Gastric Cancer in Preoperative Patients with Vascular Disease

Takuya Hashimoto (The University of Tokyo, Tokyo, Japan)

INT2-5 Clinical Result of In-situ Bypass for Primary Infected Infrarenal Abdominal Aortic Aneurysm

Sang Jun Park (Ulsan University Hospital, University of Ulsan, Ulsan, South Korea)

INT2-6 Combined Carotid Endarterectomy and Coronary Artery Bypass Grafting: 15 Cases Report

Peng Liu (China-Japan Friendship Hospital, Beijing, China)

15 : 09~16 : 21 Session 3

Chair: Makoto Mo (Yokohama Minami Kyousai Hospital, Yokohama, Japan)

Peng Liu (China-Japan Friendship Hospital, Beijing, China)

INT3-1 Paradoxical Peripheral Embolism — Uncommon Presentation of a Rare Event

J. Carvalho (Hospital S. João, Porto, Portugal)

- INT3-2 Surgical Treatment of Inferior Vena Cava (IVC) Tumor Thrombus in Renal Cell Carcinoma
Hyang Kyoung Kim (University of Ulsan and Asan Medical Center, Seoul, South Korea)
- INT3-3 Techniques of Varicose Vein Treatment
Zhidong Ye (China-Japan Friendship Hospital, Beijing, China)
- INT3-4 Serial Serum Matrix Metalloproteinases (MMPs) Measurements in Patients with Acute Aortic Dissection
Y.C. Chan (University of Hong Kong Medical Centre, Queen Mary Hospital, Hong Kong, China)
- INT3-5 Establishment of a Dog Model for Stanford Type B Aortic Dissection
Jingdong Tang (Tongji Hospital, Tongji University, Shanghai, China)
- INT3-6 Predicting Abdominal Aortic Aneurysm Rupture — Not Only Size Matters!
J. Roy (Karolinska University Hospital and Institute, Stockholm, Sweden)
- INT3-7 Early and Late Surgical Outcomes for Acute Type A Aortic Dissection
Masashi Tanaka (Saitama Medical Center, Jichi Medical University, Saitama, Japan)
- INT3-8 Unstable Carotid Plaque Metabolism Visualized with Positron Emission Tomography (PET)
Martin Graebe (State University Hospital of Denmark, Rigshospitalet, Copenhagen, Denmark)
